EDUCATION

Vellore Institute of Technology(VIT)

Integrated Master of Technology in Artificial Intelligence

Bhopal, IN

September 2024 – 2029

EXPERIENCE

Software Development Engineer (SDE) Intern

Viskk

March 2024 – Present

Remote

- Developing a Windows application focused on enhancing user productivity and screen management.
- Optimizing application performance and functionality to ensure a smooth user experience.
- Collaborating with the team to refine the software and enhance its practical usability.

PROJECTS

TicketScanning App | *Flutter, MongoDB, QR Code Scanner*

October 2024

- Developed a ticket validation system for seamless event check-ins.
- Implemented QR code scanning with real-time ticket status updates (Invalid, Checked-in, Already Checked-in).
- Integrated MongoDB as the backend for storing and validating ticket information.
- Built a user-friendly UI in Flutter to ensure smooth scanning and error handling.

Leaderboard | *Next.js, Google Sheets API*

Feb 2025

- Built a leaderboard system that dynamically fetches data from Google Sheets.
- Designed a responsive UI that displays rankings for multiple categories.
- Implemented a seamless data retrieval mechanism without requiring a dedicated backend.

AI-Based Language Translator | *Next.js, Google Translate API*

March 2025 – Present

- Creating a real-time translation app using Next.js and Google Translate API.
- Designing a modular architecture to support multiple languages efficiently.
- Optimizing UI for fast translations and smooth user experience.

TECHNICAL SKILLS

Languages: Dart

Frameworks: Flutter

APIs: Google Sheets API, Google Translate API

Tools and Platforms: Git, Google Cloud Console

ACTIVITIES

- Active member of the Fintech Club at VIT(Bhopal). Member of the Technical Team, contributing to the development and optimization of digital solutions to enhance club initiatives and operations.
